

DBN V2 SCENARIO
QUATRE-BRAS 1815

Appendix A

This battlefield is based on a 3' x 3' table

The stream is fordable by all except Artillery. The ridge lines run along the centre of all contours.

The Corn Field had a giant crop of 4 to 5 feet tall, this reduces visibility and ballistic fire effect therefore musket fire is reduced to 100paces into the field and artillery fire to 600paces.

Quatre-Bras is classed as a Fortification and Gemioncourt, Pierrepoint and Piraumont are classed as Strong Points.
